Experience

Atreya Digital Health
Web Design Intern | April 2021 - August 2021

Assigned to a team in charge of redesigning the company website. Recieved approval of our proposal by the CEO and later implemented our design for a new online interface. Team collaboration, task designation, and feedback between team members ensured that we were on the right track at a pace that fit our schedules.Research into the target audience and other relevant topics opened up discussion related to design ideas that would move us towards fulfilling our criterion.

• Took initial lead of intern team by first creating a feasible goal, then by planning our actions and meeting days while facilitating discussions on how to move forward with our assigned project.

Dhen Gallery
Web Interface Redesigner | September 2021 - November 2021

Tasked with being the sole designer whose goal was in writing a proposal for redesigning the online storefront for a vintage product company as well as working with the company owner in photo editing for other projects. Role includes performing market research on target audience and other online storefronts with the similar backgrounds to deliver most optimal results backed by data. Proposal approved by company head.

• Reorganization of product groupings.
• Wrote website design overhaul proposal with new composition while keeping with original website integrity.
• Visual assetts designed by myself include Photoshop editing and logo designing on Illustrator.
